Order our Chile Portfolio Brochures Here

Dear Colleague

Exciting news — [Australis](#) has finally been launched from the shipyard in Chile and is currently undergoing sea trials for its debut with Australis cruises in January 2018.

Changes are also afoot at [Hotel Las Torres](#), where the standard rooms are being phased out in favor of larger, more modern guest accommodations. The wilderness lodge in Torres del Paine has also announced that it will be open longer into the southern hemisphere autumn next year.

Also in this month's newsletter we offer new 360-degree views of the cabins and common areas on [Stella Australis](#). Check about being the legendary ["W" Trail](#) in winter and the second half of Jessie's trip report on visiting Las Torres.

Meanwhile, you can learn more about the cool companies we represent in Chile by returning to our brand new [Chile Portfolio website](#) — From Santiago to Cape Horn, we've got you covered!

Best,

Jane + Jessie

Representing cool companies in cool places.

Changes Afoot at Hotel Las Torres

It may be the depths of winter in Patagonia, but the folk who run [Hotel Las Torres](#) are hard at work making the next summer season (2017-18) even better for visitors to Torres del Paine National Park

with major room renovations. [More](#)

Ventus Takes to the High Seas

Born for the wilderness of Patagonia — with the quality of service, comfort and safety that has always characterized the Australis fleet — Ventus will soon join sister ship Stella Australis as the only passenger vessels that can venture through the narrow fjords of Torres del Paine and disembark at fabled Cape Horn. [More](#)

the only passenger vessels that can venture through the narrow fjords of Torres del Paine and disembark at fabled Cape Horn. [More](#)

Patagonian Glaciers: Bucking the Trend

Against the global trend, some of Patagonia's 50-plus glaciers are expanding — other than retreating — including at least one that can

be easily visited before or after a cruise with [Australis](#). [More](#)

Trekking the "W" in Winter? You Bet!

If you thought the southern hemisphere summer was the only time to hit Patagonia, think again. Because Fentress Sur has launched an incredible [winter trekking program](#) at Torres del Paine. [More](#)

Jessie's Trip Report: Hotel Las Torres (Part Deux)

I recently visited [Hotel Las Torres](#) in southern Chile's Torres del Paine National Park. This is the second installment of my trip report. With Hotel Las Torres as my base camp, I struck out each day for adventures and explorations in the wilderness and Torres del Paine National Park. These are some of the activities I highly recommend for anyone who goes there. [More](#)

The 360 on Stella Australis

Documented not to be left behind in the technology race, [Stella Australis](#) recently introduced 360-degree views of cabins and common areas on the australis website. The swirl-around images include seven different cabin categories (gotta love those huge picture windows) as well as the dining room, lounge, bridge, reception area and panoramic deck. [More](#)
