

Dear Colleague

I've just returned from visiting [Hotel Las Torres](#) and [Parque Nacional Sur](#) in the beautiful Torres del Paine National Park in Patagonia. What a treat to spend two nights in the same bed! In this month's newsletter you'll find information and stories on both – later companies that help you explore the park on foot, horseback, boat and via comfortable vans.

During this visit, I was lucky enough to navigate Lake Nordenskiöld on the staff supply boat (sorry, no hikes allowed) from the lakeshore (direct to Hotel Las Torres to the remote dock for Refugio Francés. I disembarked at the village, ate a hearty breakfast in the canteen, and then checked out the hostel accommodations, campground (altitude tents) and other facilities. We hiked to the Mirón Cuerno for lunch and then started the nine or so mile walk back to Hotel Las Torres along part of the [Camino](#).

What totally surprised me was the fact that the entire trip took place within the Reserva Cerro Paine, private property inside the park that stretches along the base of the Towers granite monoliths. It was such a pleasure seeing the horns or cuernos so close. Torres del Paine is truly one grand vista after another.

And props to both [Parque Nacional Sur](#) and [Hotel Las Torres](#) for making the journey such a pleasure.

Best,

James (+ Jessie)
