SMALL SHIP
CRUISING

[Order Small Ship Cruising Brochures Here](#)

Dear Colleagues,

Is it really February already? We're just back from the New York Times Travel Show with [SeaTrek Sailing Adventures](#) and it was so good to see some familiar faces.

This month's Small Cruise Newsletter includes news about three new Icelandic gateways, videos that are making us hungry and much more! The Early Bird Special from [Iceland ProCruises](#) ends this month, so don't delay booking. Our special Northern Lights & Whales itinerary is a great way to see the island by land and sea.

Meziah & SeaTrek is proud to announce its partnership with Kopernik, a Bali-based nonprofit committed to expanding clean energy in remote communities across Indonesia.

We want to give you important news updates they way you want which is why we have created an SMS text message version of our news. [Sign up here](#) to receive important text updates.

As always, don't hesitate to reach out.

Jane + Jessie

Representing cool companies in cool places

In Case You Missed It!

- Iceland ProCruises**
 - Iceland ProCruises' 2018 departures are filling fast. We have the best availability on our May departures, Iceland & Greenland departures and Northern Lights & Whales! Our June 16th, June 25th and September 3rd Iceland Circumnavigators are completely full.
 - Iceland now has 7 times more tourists than inhabitants. Think of Iceland ProCruises as a way to take some of the strain off of the country's infrastructure. We are being guests to less visited areas of the island and spreading the wealth of tourism around!
 - "Like" us on Facebook for up to date info, specials and more!
- SeaTrek Sailing Adventures**
 - We have quite a few people asking us about visiting Bali and its surrounding islands around Christmas. During that period the Katharina and the Oriskany Faith are in Eastern Indonesia. Why? The rains on Bali are just too heavy, so we move our operations 1,000-1,200 miles east, where it is dry.
 - We still have 3 cabins available on our wonderfully informative and educational topic cruise in May 2018, and are offering a 10% discount to readers of this newsletter if they contact us before the end of the month.
 - The volcano remains dormant at this point and hasn't given us any trouble for many weeks - don't forget we have contingency plans in place should the diabolical otherwise. Never fear.
 - "Like" us on Facebook!

Iceland ProCruises "Early Bird" Special Ends February 28

Early Bird rates for booking 2018 sailings of the "Iceland Circumnavigation," "Northern Lights & Whales" and other itineraries aboard the MV Ocean Diamond are scheduled to end on February 28th, 2018.

New Icelandic Gateways in North America

Iceland keeps getting easier and easier to reach from the US. Or in this particular case, travelers from Kansas City, Baltimore and the San Francisco Bay Area. [Read More](#)
