Dear Colleague,

Oh the times they are a changing! In the last month, we have had some really exciting changes at [Emerging Destinations](#).

Our little company is growing. This month we welcome Ana Kammerer to our team. A 15-year industry veteran, Ana will be working primarily with our South American clients. We now have 4 full time people at the company and 4 part time people. Thanks so much for your support as we make this transition. I truly believe we have one of the strongest teams in the business!

This month we welcomed [Peru EcoCamp](#) into our portfolio. Offering treks on the Salkantay Trail and luxury eco domes, the company offers guided luxury FIT treks, with no set departure dates. Scroll down to see our announcement and **sign up for our upcoming webinar [here](#)** to learn more about the experience.

I also returned two weeks ago from a terrific trip with [Oceanwide Expeditions](#) to Antarctica. Truly the trip of a lifetime. I'm happy to chat your ear off on how fun of a company Oceanwide is to travel with.

As always, please let us know if we can assist you in any way!

Best regards,

**Jane + Jessie + Jenna + Ana**

### Amazon Mystery: The Iron House by Gustave Eiffel

Who would have guessed that in the heart of the Peruvian Amazon there's an architectural masterpiece by the man who created the Eiffel Tower in Paris — Gustave

Eiffel?

Located in the heart of Iquitos on the [MORE](#)

### Earth vs. Mars: Polar Regions Compared

It's common knowledge that Mars, like Earth, has its own polar regions - typically called the Martian ice caps - and that these regions, also like Earth, are located at the north and south poles and have much lower temperatures than the areas in-between.
